**FUTURE
FOF
FESTIVALS**

WRIEZENER KARREE

WHAT WOULD LIFE BE LIKE WITHOUT FESTIVALS? WITHOUT THE CREATIVE MINDS ON AND BEHIND THE STAGE?

Without the crowd of visitors and their passion for music, art and culture, and without the dedicated staff that take care of the well-being of everybody inside the festival enclave? What will the future of festivals look like? This is the question we want to answer.

Future of Festivals is the first and only festival network exhibition – a declaration of love to festival makers in all their diversity. Our mission: we want to bring people from the festival industry, service providers, experts and volunteers together.

We believe in the evolution of festivals. In panels, workshops and key notes we want to develop innovative and visionary answers to the questions that the challenges of the future will bring up.

Let's network.

Let's write the future of festivals together.

EXHIBITION

Grandeur reportedly comes from within. That's why we're emphasising on our inside area. Covering 2100 m², this is where the festival industry is presenting its strength. Close to 150 exhibitors from far and wide are showing how to sleep at festivals prospectively, improve them technically, which marketing tools you cannot go without and how to organise festivals more sustainably.

CONGRESS

»Something to talk about« – our congress is a two-day industry meet-up. Here you are connecting, sharing, and inspiring each other. More than 80 national and international speakers are feeding you with visionary topics for new ideas and concepts. The boundaries of your horizon are supposed to melt and re-arrange. Our motto: Think differently, re-think, think new.

TALENTS

Talents exhibits the love and passion within the festival industry. This is where event management assistants, engineers, volunteers, service providers and festival organisers are getting in touch. That goes for old stagers as well as for those looking for new challenges and wanting to set foot in the industry. Various discussion panels, workshops and keynote speeches are framing the meetups.

LOCATION

Wriezener Karree
Wriezener Karree 15
10243 Berlin-Friedrichshain

Public transport
S3, S5, S7, S9
Berlin Ostbahnhof

WRIEZENER KARREE

The former GDR paper factory is directly located next to Ostbahnhof and Berlin's most popular Techno club Berghain. A 4200 m² outside area leads to the halls with a massive height and a lot of natural light. The 2100 m² indoor area offers plenty of space and is directly connected to the congress area with its galleries.
